

Professional Experience

26 Months

Nexval Infotech Pvt. Ltd.

Jr. Software Developer

May '21 – June '23

- Led development of **ML-based Mortgage Risk Assessment model** using **logistic regression** and **boosting algorithms**; improved accuracy from 68% to **87.56%** through **domain-specific feature engineering** and **hyperparameter tuning**.
- Drove business impact as part of the advanced analytics team, **delivering ML-driven solutions** that enhanced **risk assessment accuracy**, **boosted customer retention**, and **optimized segmentation** in BFSI and telecom sectors.
- Designed and optimized **customer churn prediction model** for telecom client using ensemble techniques; boosted prediction **accuracy from 76% to 91.56%**.
- Collaborated with **cross-functional teams** to **clean, process, and engineer** telecom customer datasets, increasing **data quality by 13%**.
- Built **Customer Segmentation Platform** by integrating **SQL-based data pipelines** from multiple sources to uncover **behavior-driven clusters**.
- Developed **interactive Power BI dashboards** with scatter plots, heatmaps, and trend lines, **reducing reporting time by 35%** and enabling CXOs to make faster, data-backed strategic decisions.
- Used **Excel features (VBA, formulas, add-ins)** to augment **data workflows** and improve **segmentation analytics output**.
- Received appreciation from **Analytics Head** for delivering **predictive solutions** that **reduced churn by >10%** and **elevated risk classification precision**.

Academic Record

PGDM – Big Data Analytics	2025 – 27	Goa Institute of Management, Goa	Pursuing
B. Tech (Computer Science and Engineering)	2020	SRM Institute of Science and Technology	65.63%
HSC – Science	2015	Aastha Academy Senior Secondary School (RBSE)	76.20%
SSC – General	2013	Koutilya ACA. INST. OF EDU. AND RESEARCH (RBSE)	74.67%

Internships

1 Month

Cariature India Pvt. Ltd.

Web Developer Intern

Oct '20 – Nov '20

Web Application Development Project – Spark Internship	• Contributed to Design and Execution of 4 web application modules, assisted in frontend and backend improvements with ~20% efficiency gain, and collaborated with the technical team on 5+ deployment and testing workflows. • Gained hands-on experience in full-stack web development lifecycle and improved feature rollout efficiency by ~15% in a live working environment.
---	--

BSNL

Training

June '17 – Jul '17

Understanding IT Infrastructure and Operations – BSNL Training	• Underwent industrial training to understand the role of IT infrastructure in telecom services and its integration with organizational operations across 3 core departments. • Gained exposure to networking, server management, and digital communication processes, enhancing understanding of real-world IT applications in a public sector enterprise with 5000+ users supported.
---	--

Academic Achievements & Certifications

- Certified in Fundamentals of Quantitative Modeling by Coursera and University of Pennsylvania, 2025
- Certified in Global Banking & Markets Job Simulation by HSBC and Forage, 2025
- Certified in Corporate Financial Statement Analysis, LinkedIn Learning, 2025
- Certified in Data Analytics Consulting Virtual Internship by KPMG and Forage, 2023

Live/ Academic Projects

Crime Forecasting Using Recurrent Neural Networks (RNN)	• Built RNN-based predictive model in Python to analyze historical crime data, engineered sequential features (time, location, crime type), and trained models on preprocessed datasets to identify temporal crime patterns. • Achieved ~70% accuracy in predicting next-day crime intensity by type and region, enabling identification of high-risk areas and supporting proactive decision-making for law enforcement.
--	--

Positions of Responsibilities

- Lead Coordinator, Sudhir Meheriya Smriti Sansthan – Headed a blood donation camp and awareness drive involving 100+ participants; ensured smooth execution and impactful outreach, 2024

Core Competencies

Software Packages	• Programming: Python, R, SQL • Libraries & Frameworks: Pandas, NumPy, Scikit-learn, TensorFlow, Keras, XGBoost, LightGBM • Analytics & Visualization: Power BI, Tableau, Excel (VBA, Formulas, Add-ins), Matplotlib, Seaborn, Plotly • Domains: BFSI, Telecom, Risk Modelling, Customer Analytics, Churn Prediction, Segmentation • Tools & Platforms: Jira, Git
--------------------------	--
